DuPont
Old Hickory, Davidson County, Tennessee

Dear Mr. Chambers:

The Division of Water Resources (division) acknowledges receipt of a certified Notice of Termination on 10-JUN-16. This form was submitted according to Section 8.1.1 of the General NPDES Permit for Discharges of Storm Water Associated with Construction Activities (TNR100000), which requires the operator to submit written certification that a site, or portion of a site, has been finally stabilized and all storm water discharges associated from the construction activities that were authorized are eliminated.

If you have questions, please contact the division at your local Environmental Field Office at 1-888-891-TDEC; or, at this office, please contact Ms. Bridgette Corsa at (615) 687-7115 or by E-mail at Bridgette.Corsa@tn.gov.

Sincerely,

Ann Morbitt
Environmental Program Manager

Notice of Termination (NOT) for General NPDES Permit for Stormwater Discharges from Construction Activities (CGP)

This form is required to be submitted when requesting termination of coverage from the CGP. The purpose of this form is to notify the TDEC that either all stormwater discharges associated with construction activity from the portion of the identified facility where you, as an operator, have ceased or have been eliminated; or you are no longer an operator at the construction site. Submission of this form shall in no way relieve the permittee of permit obligations required prior to submission of this form. Please submit this form to the local WPC Environmental Field Office (EFO) address (see table below). For more information, contact your local EFO at the toll-free number 1-888-891-8332 (TDEC).

Type or print clearly, using ink and not markers or pencil.

E-mail:

Nathanial.W.Chambers-1@dupont.com
Check the reason(s) for termination of permit coverage:

<input checked="" type="checkbox"/>	Stormwater discharge associated with construction activity is no longer occurring and the permitted area has a uniform 70% permanent vegetative cover OR has equivalent measures such as rip rap or geotextiles, in areas not covered with impervious surfaces.
<input type="checkbox"/>	You are no longer the operator at the construction site (i.e., termination of site-wide, primary or secondary permittee coverage).

Certification and Signature: (must be signed by president, vice-president or equivalent ranking elected official)

I certify under penalty of law that either: (a) all stormwater discharges associated with construction activity from the portion of the identified facility where I was an operator have ceased or have been eliminated or (b) I am no longer an operator at the construction site. I understand that by submitting this notice of termination, I am no longer authorized to discharge stormwater associated with construction activity under this general permit, and that discharging pollutants in stormwater associated with construction activity to waters of the United States is unlawful under the Clean Water Act where the discharge is not authorized by a NPDES permit. I also understand that the submittal of this notice of termination does not release an operator from liability for any violations of this permit or the Clean Water Act.

For the purposes of this certification, elimination of stormwater discharges associated with construction activity means that all disturbed soils at the portion of the construction site where the operator had control have been finally stabilized, the temporary erosion and sediment control measures have been removed, and/or the site or portions of the site have obtained permit coverage by subsequent operators or that all stormwater discharges associated with construction activities from the identified site that are authorized by a NPDES general permit have otherwise been eliminated from the portion of the construction site where the operator had control.
